

Quality Policy

VISION

"To become consistently one of the top 3 global leaders in providing cutting-edge sustainable solutions for plastic film extrusion."

MISSION

"To anticipate customer demands, create synergies with excellent partners, and continuously raise quality standards."

To achieve the vision, Colines' mission is fulfilled every day through the commitment to:

- Meet all applicable requirements and customer expectations through product and service quality, while rapidly adapting the company's strategy to the industrial environment, being customer-oriented and flexible.
- Lead, motivate, and develop the skills of the personnel at all levels, recognizing that the quality of products and services stems from the cooperation of human resources, whose contribution is vital to achieving such goals.
- Implement a process of continuous improvement to pursue product and service excellence, involving all stakeholders, with a particular focus on suppliers.
- Continuously enhance product safety and workplace environments, actively demonstrating the company's social and environmental commitment.
